

Landmark Cleaning Activities in Early 2026

The EC is pleased to advise that a variety of common area cleaning activities will occur at Landmark in early 2026, including apartment inaccessible windows.

The annual inaccessible window cleaning scheduled for August 2025 was postponed due to the Blackall Street roof rectification works commencing in that month.

It is anticipated that the following cleaning activities will occur at the first available opportunity after the site is handed back to the Owners in the first quarter of 2026.

- Building wash down
- Bulky waste removal
- Car park cleaning
- Common area carpet cleaning
- Bin chute cleaning
- Inaccessible window cleaning and cobwebbing

Canberra Strata will keep Owners updated on the dates and details for these activities as and when they are booked in following completion of rectification works.

Thank you for your patience, continuing support and understanding as we approach the final stages of the rectification works.
